

FABRICART

catalogue 2017

FabricArt is a weavers studio specializing in the production of high quality fabrics. We make our clients' ideas come to life, we cooperate with them on every step — from a draft to the final fabric. Our team consists of graphic designers, engineers and experts in the textile industry.

In our weaving studio we create fabrics in the broken twill, herringbone, diamond and Jacquard weave, including the ones inspired by traditional methods of weaving on a handloom and original projects such as the Collora technology. We also offer a wide scope of yarns used in our fabrics: cotton, bamboo viscose, linen, hemp, silk, cashmere and wool.

*Share your ideas with us
we will provide the unique fabric!*
