WILD WINE - PATH

52% cotton, 48% linen
weave type: jacquard
GSM: 260g/m²
fabric width: 152cm
repeat width: 77,5cm

WILD WINE - PATH

Symbol: WLJ_FBRCRT_WLD_WN_PTH_140

LOTUS - NATURAL

100% linen
weave type: jacquard
GSM: 280g/m²
fabric width: 148,5cm
repeat width: 12,5cm

LOTUS - NATURAL

Symbol: WLJ_FBRCRT_LTS_NTRL_140

RAPUNZEL - GLEAM

50% cotton, 50% linen
weave type: jacquard
GSM: 280g/m²
fabric width: 152cm
repeat width: 24,5cm

RAPUNZEL - GLEAM

Symbol: WLJ_FBRCRT_RPNZL_GLM_140

VIRIDIFLORA - MAUREEN

100% bamboo viscose
weave type: jacquard
GSM: 260g/m²
fabric width: 149cm
repeat width: 25cm

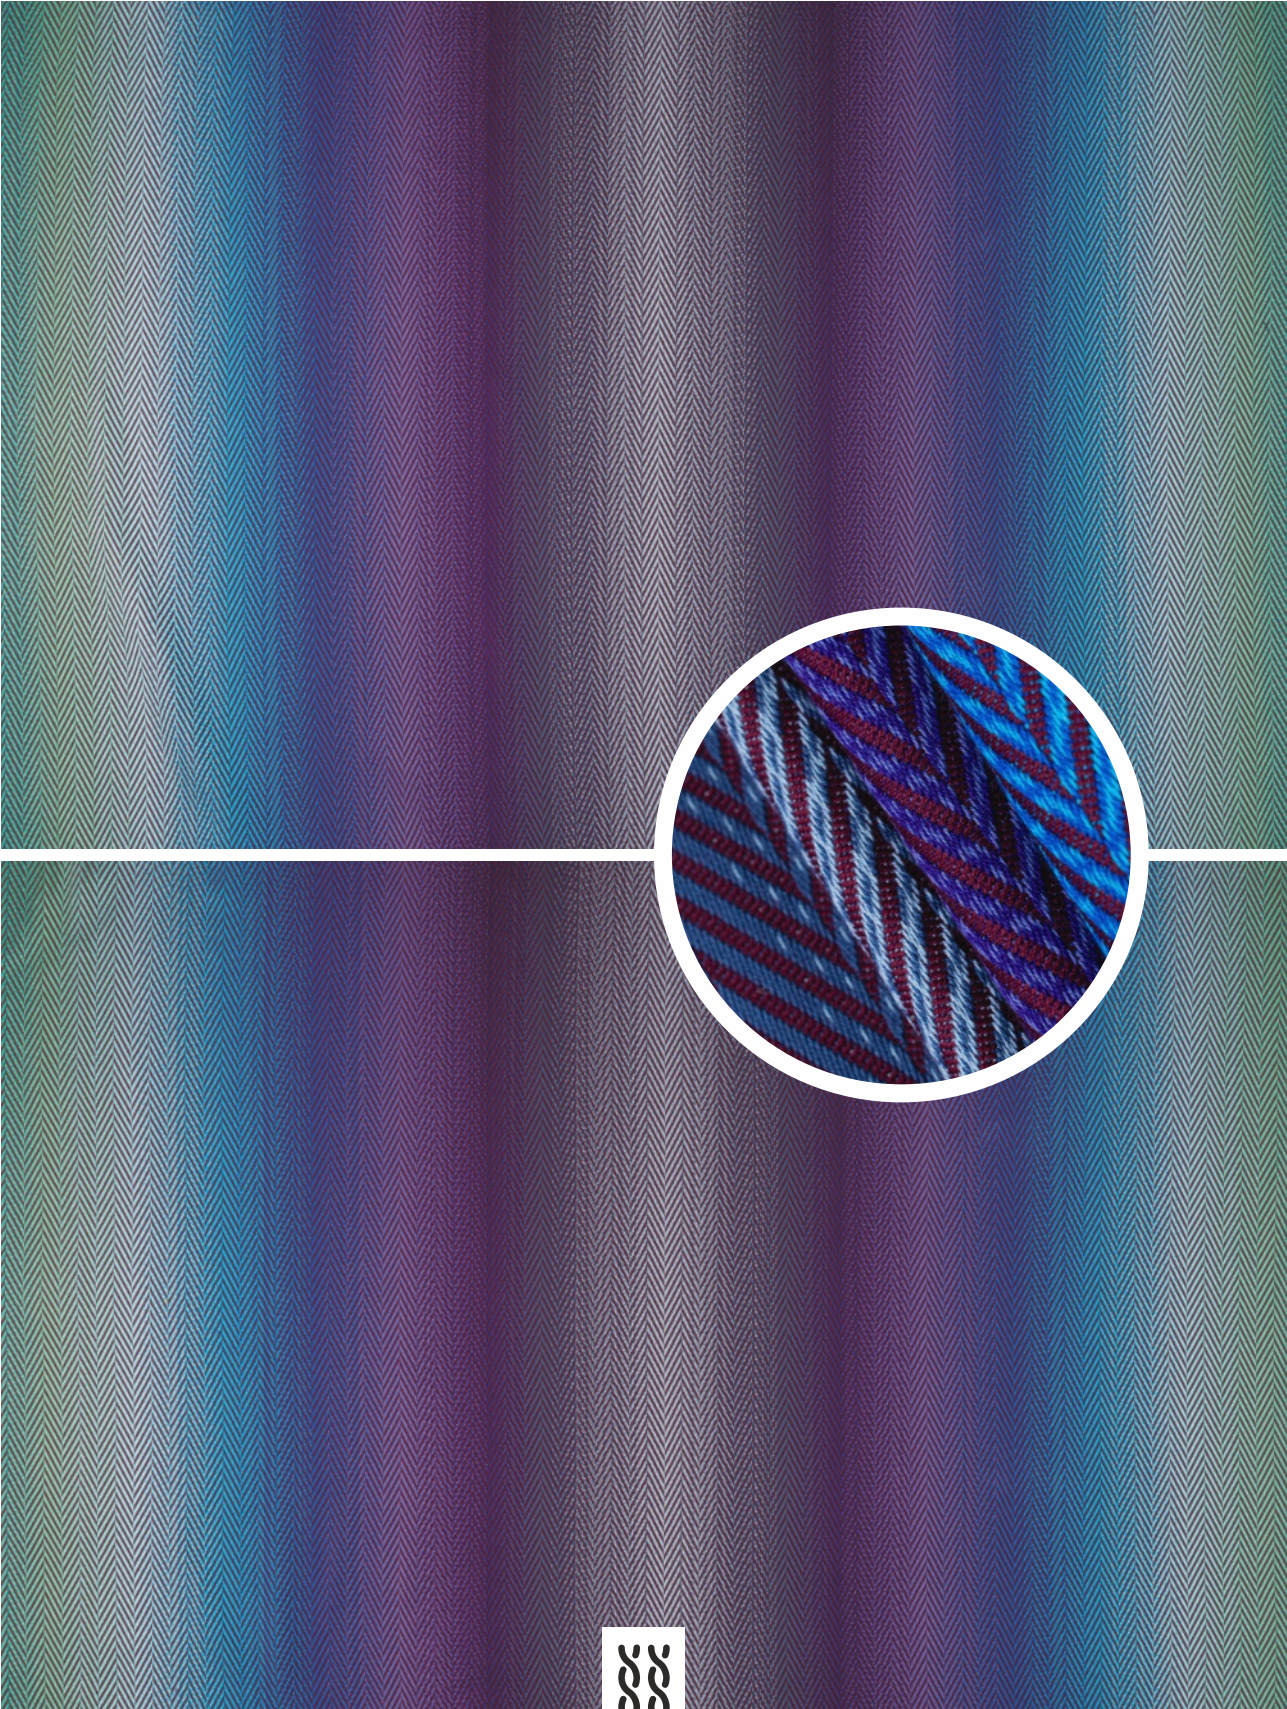

VIRIDIFLORA - MAUREEN

Symbol: WVJ_FBRCRT_VRDFLR_MRN_140

HERRINGBONE - PREDAWN

100% cotton
weave type: jacquard
GSM: 320g/m²
fabric width: 143cm
repeat width: 71,5cm

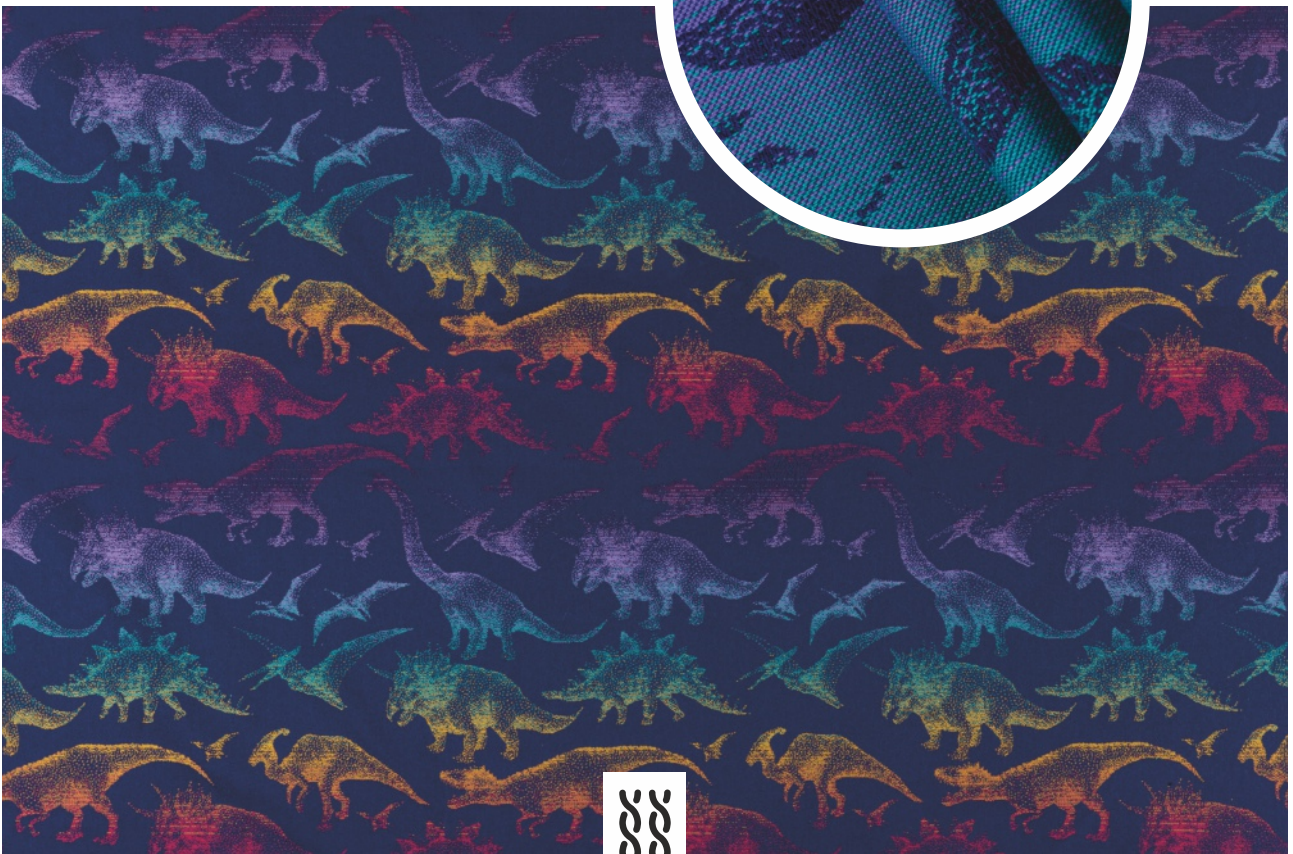

HERRINGBONE - PREDAWN

Symbol: WVJ_FBRCRT_HRRNGBN_PRDWN_140

JURASSIC PARK - NEW ERA

100% cotton
weave type: jacquard
GSM: 310g/m²
fabric width: 141cm
repeat width: 47cm

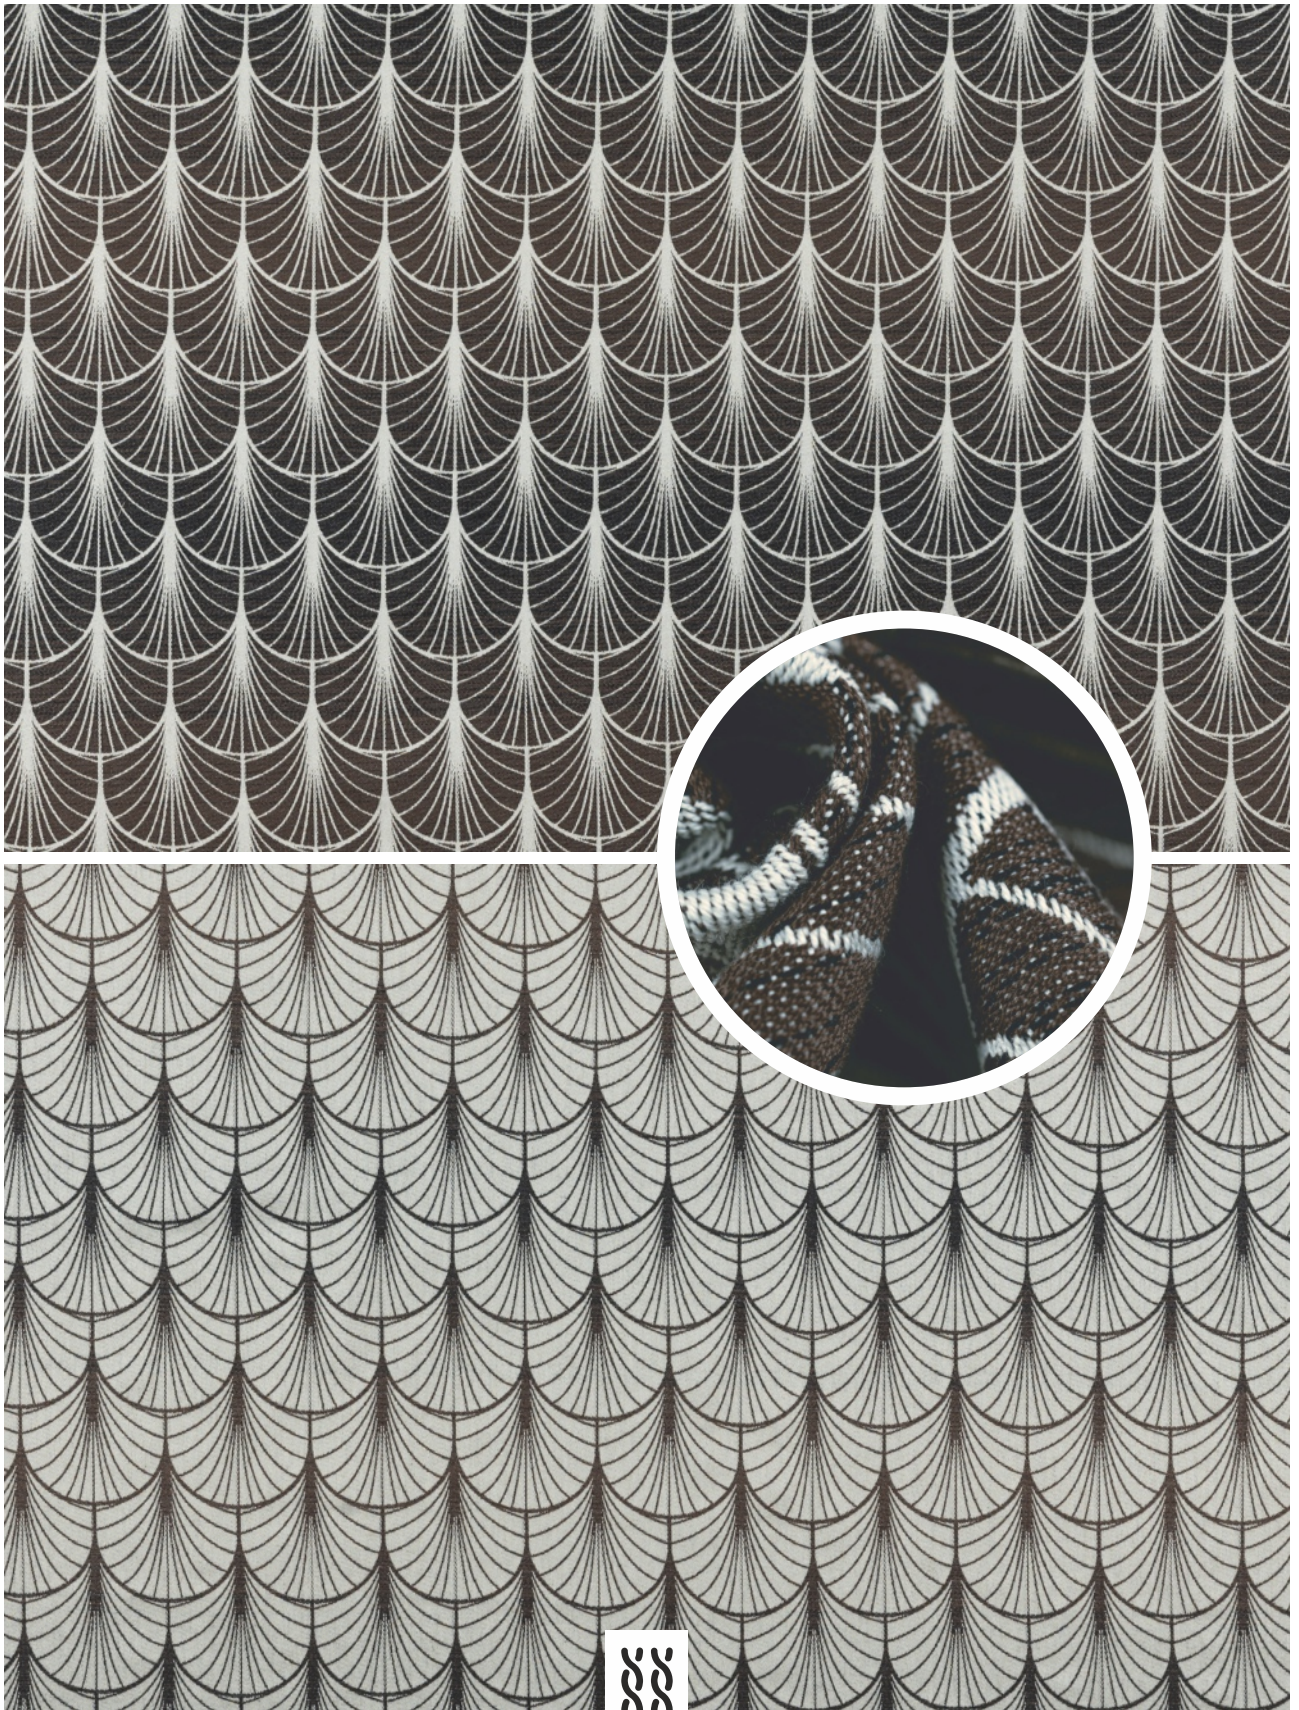

JURASSIC PARK - NEW ERA

Symbol: WVJ_FBRCRT_JRSSC_PRK_NW_ER_140

DECO - GRAINFIELDS

100% cotton
weave type: jacquard
GSM: 280g/m²
fabric width: 146cm
repeat width: 9cm

DECO - GRAINFIELDS

Symbol: WVJ_FBR CRT_DC_GRNFLDS_140

RAPUNZEL - AURATUM

100% cotton
weave type: jacquard
GSM: 270g/m²
fabric width: 144cm
repeat width: 24,5cm

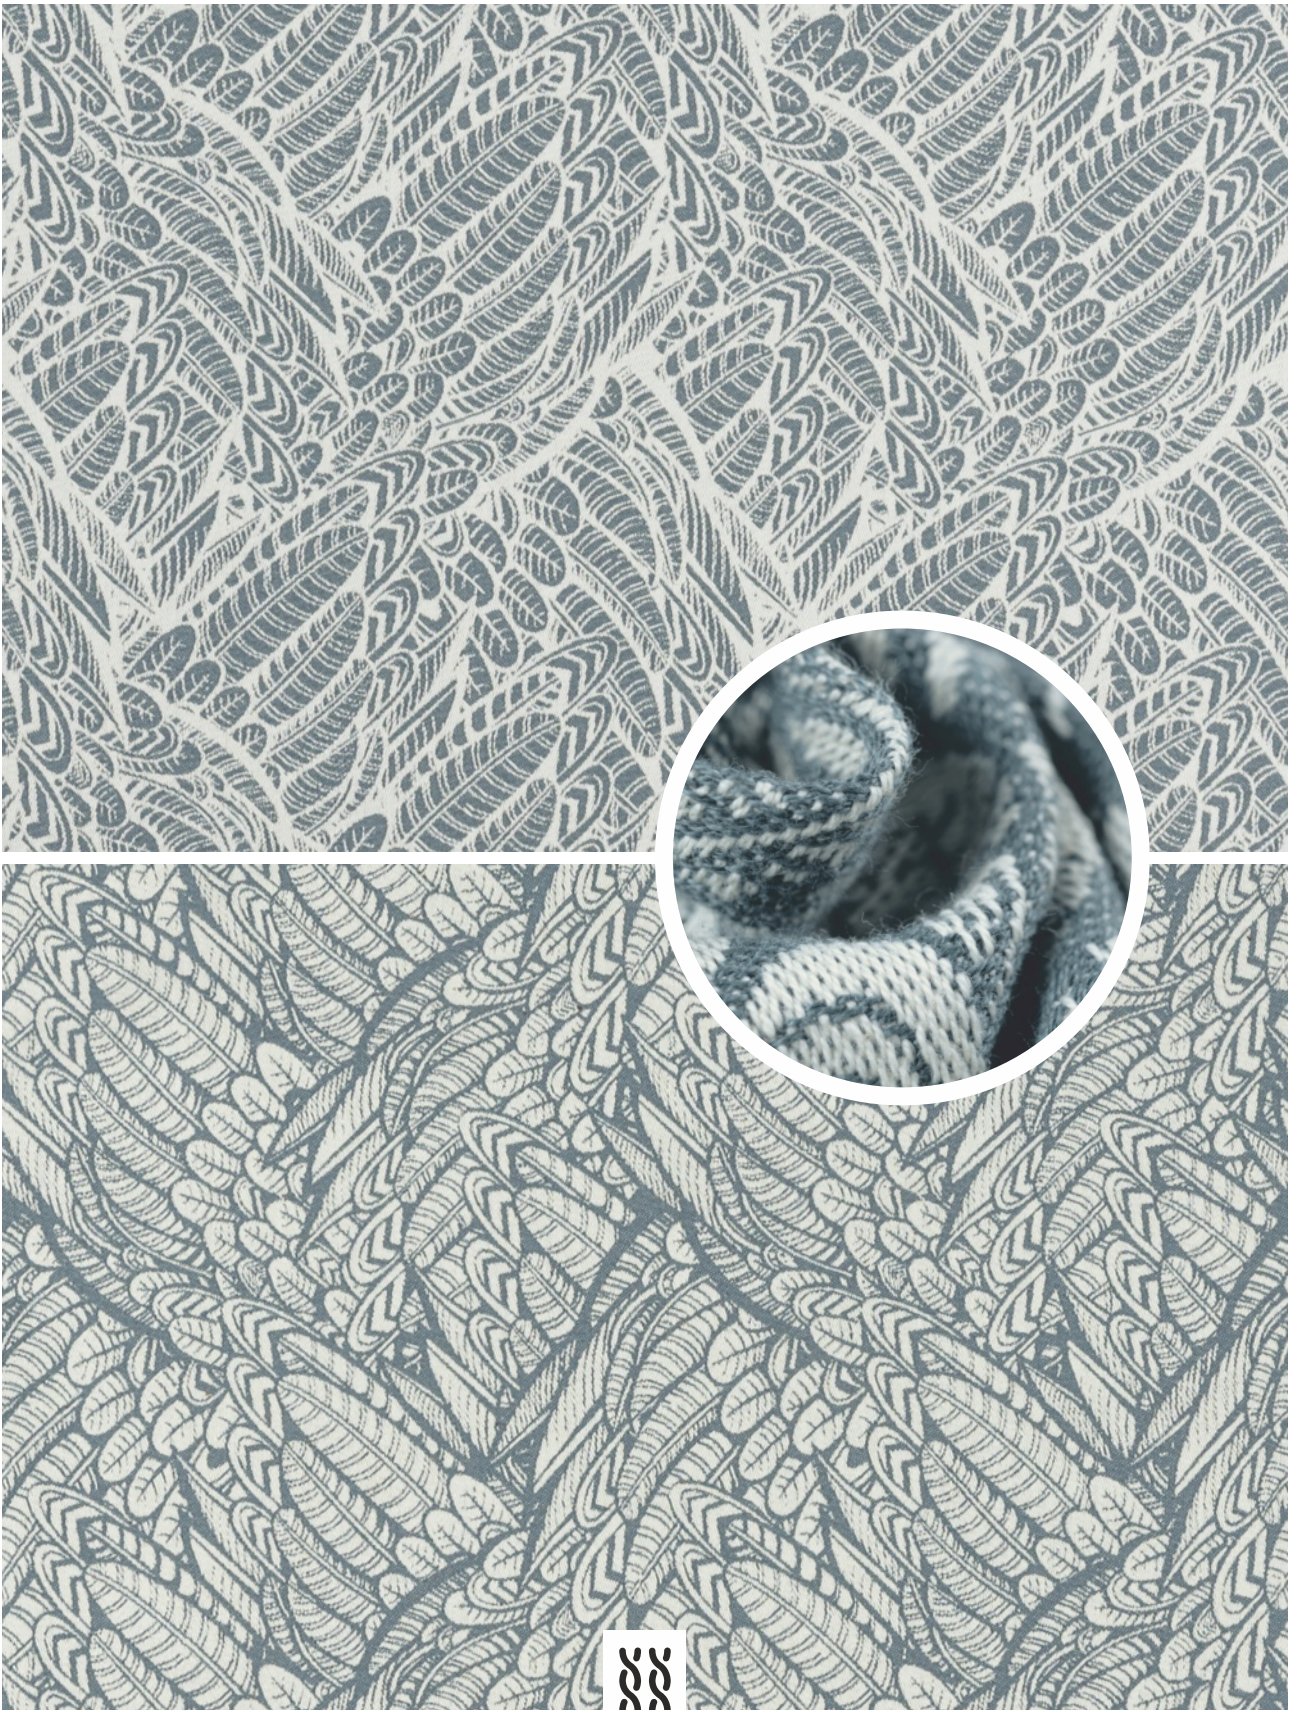

RAPUNZEL - AURATUM

Symbol: WVJ_FBRCRT_RPNZL_ARTM_140

WILD SOUL - NIKE

100% cotton
weave type: jacquard
GSM: 270g/m²
fabric width: 147cm
repeat width: 24,5cm

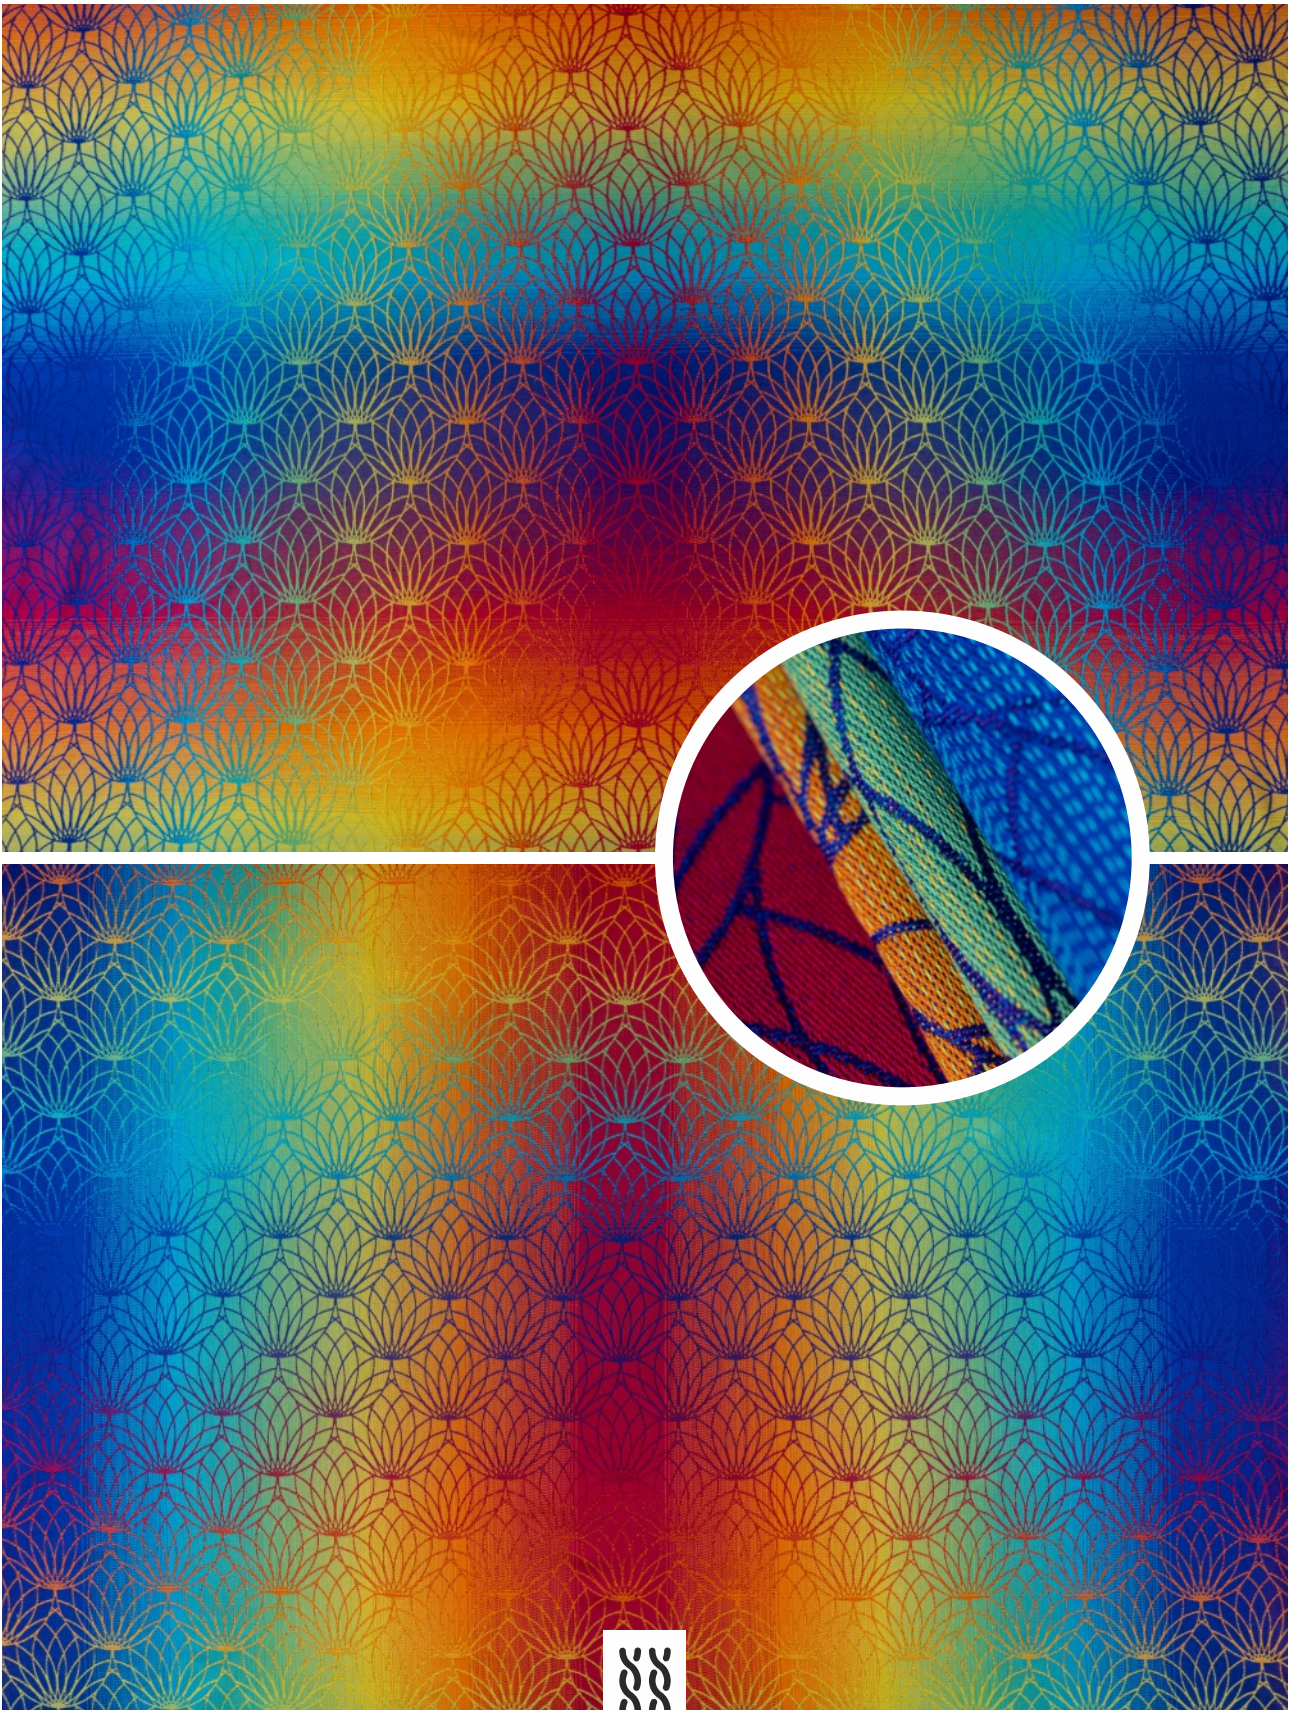

WILD SOUL - NIKE

Symbol: WVJ_FBCRT_WL_SL_NK_140

RAINBOW LOTUS

100% cotton
weave type: jacquard
GSM: 290g/m²
fabric width: 149cm
repeat width: 74,5cm

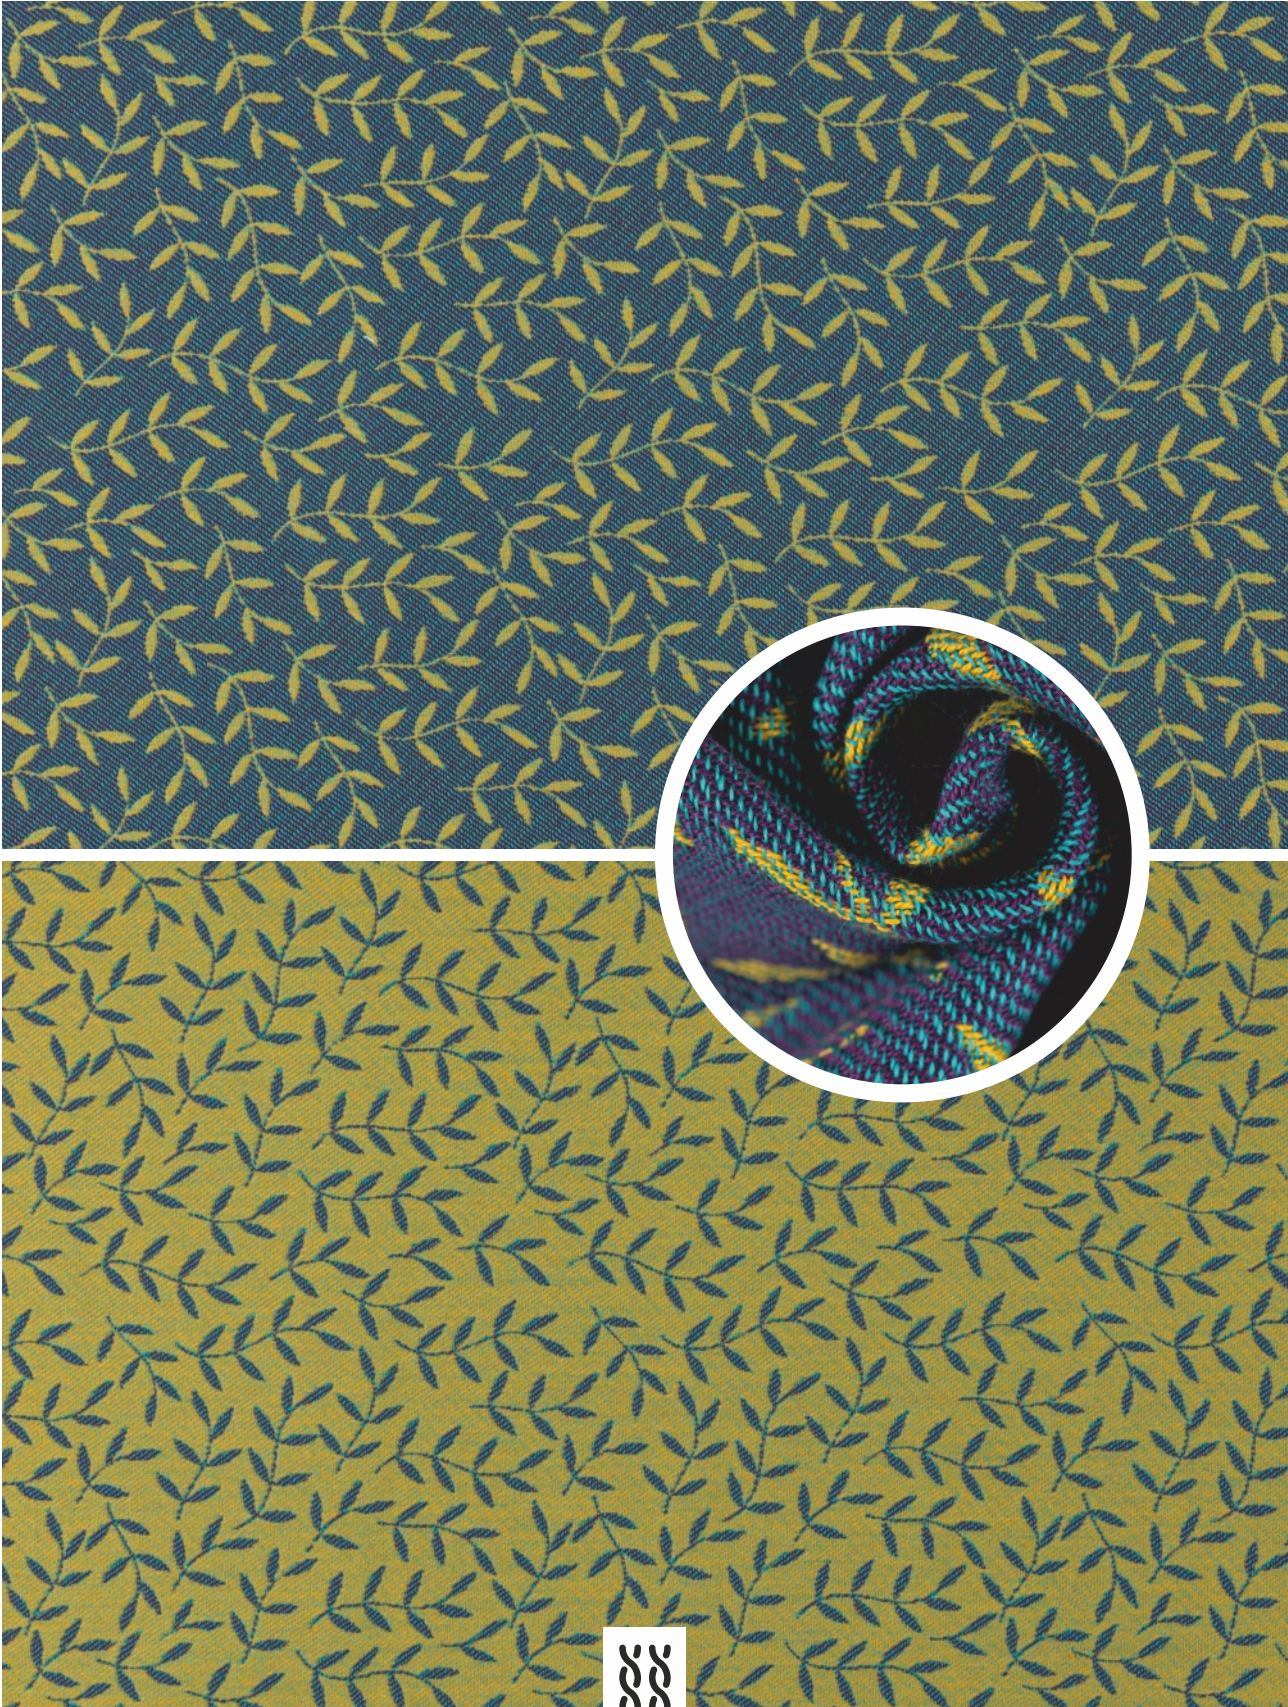

RAINBOW LOTUS

Symbol: WV_FBRCRT_LTS_RNBW_140

ENCHANTED NOOK - IN BLOOM

100% cotton
weave type: jacquard
GSM: 250g/m2
fabric width: 144cm
repeat width: 18cm

**ENCHANTED NOOK
- IN BLOOM**

Symbol: WVJ_FBRCRT_ENCHNTD_NK_IN_BLM_140

Weave types properties

Yarn's properties

JACQUARD WEAVE

Jacquard weave fabrics have unlimited design possibilities due to the independent control of individual warp threads. For this reason, they also differ greatly in appearance, thickness and properties. They can even have very complex patterns. Jacquard fabrics are created by applying opposing weaves to separate areas. The classic is a combination of satin weaves. It is also possible to combine other basic or modified weaves.

IRIS - OPALESCENT FABRIC

What happens when you hide the warp while weaving fabric? Oh no! It can't be hidden... it will emerge as an incredible glow - magic!

COTTON

Cotton fibre is breathable, resilient, flexible and strong. It is easy to clean and care for.

BAMBOO VISCOSE

It is breathable and cool to the touch, making it ideal for summer. Fabric with this yarn is smooth, flowing and soft. It has antibacterial and hygroscopic properties.

LINEN

Fabric with this yarn is ideal for summer. Linen fabric has high antibacterial and hygroscopic properties, which means it absorbs and wicks away moisture. Linen fabric is rather stiff and may need breaking in at first, but thanks to this it is very durable. It is worth treating it gently, because it can shrink.

Fabric colors may differ slightly from those seen on the monitor.
The color difference results from different monitor settings.
